Emergency Beacons

GME is the leading Australian manufacturer of PLBs and EPIRBs, with more rescues starting with GME than any other brand.

As the market leader in EPIRB, GME's beacons are subject to rigorous testing and sampling to ensure all our beacons are built to last, offering an impressive 6 year warranty.

Featuring both GPS and Non-GPS, manual activation and float-free beacons as well as PLBs, GME has an emergency beacon suited to every application.

MT610G
GPS Personal Locator Beacon

Key Features

Compact, Lightweight Design
IP68 Ingress Protection
Integrated 72Ch GPS Receiver
Includes 121.5MHz Homing Transmitter
COSPAS-SARSAT Class 2
7 Year Battery Life
Easy to Deploy
Inherently Buoyant

In the Box

GPS Personal Locator Beacon (MT610G)
Safety Lanyard
Instruction Manual
Quick-start Guide

MT603G
406MHz GPS EPIRB (Class 2)

Key Features

Automatic Water Activation
66 Channel GPS Receiver
48 Hours Minimum Operating Time
High-intensity, Solid State Strobe Light
Cospas-Sarsat Worldwide Certification
MEOSAR-ready
6 Year Battery Life

In the Box

Class 2 406MHz EPIRB (MT603G)
Quick-release Mounting Bracket

Marine Radios

GME has been designing and manufacturing VHF Marine Radios for over 40 years, with a primary focus on technology and outstanding quality. Our range features both flush-mount and hideaway units as well as handheld radios.

Our fixed mount range includes the GX700 compact VHF Marine radio and the GX750 Black Box VHF Marine radio with LCD controller microphone.

Our range of handheld VHF radios includes the GX850W and GX800W, both of which are equipped with the latest safety features to ensure reliable communication is always available when required.

GX400
27MHz Marine/CB Radio

Key Features

User Selectable Marine and CB Frequencies

Waterproof Speaker Microphone

Large Backlit LCD Screen with Dimming Function

Ingress Protected to IPX7

Channel Scanning with Memory

Dual Watch and Triple Watch Functions

Two Priority Channels

In the Box

27MHz CB Radio (GX400B/W)

Cabin Cover

Mounting Bracket (MB205 Black/MB204 White)

Gimbal Knobs and Hardware

Microphone Bracket

12V DC Power Lead

GX700
VHF Marine Radio

Key Features

25/ 1 Watt Switchable Power

Waterproof Speaker Microphone

Compact Design, Overall Depth Only 75mm

Ingress Protected to IPX7

Dual and Triple Watch with Programmable Priority Channel

Two Working Channel Memories

Rear Microphone Input Socket

In the Box

Marine Radio (GX700B/W)

Marine Antennas

Introducing the new GME Marine Antenna System, a product line that provides a simple yet highly versatile solution to the myriad of antenna installation problems encountered on vessels.

At the heart of the system are the ABL series of interchangeable swivel bases, the ABL012 and ABL013. Suitable for the VHF, Broadcast and AIS antenna whips. Utilising GME's intergrated SO/PL259 connection technique, the coaxial cable remains attached to the base rather than the antenna whips, permitting installation or security removal of the whip in a matter of seconds. A splash proof silicon cap is provided for connector protection when the whip is removed.

The size and flexibility of the swivel bases, coupled with the solderless FME connectors enable fast, trouble free installation in even the most challenging situations.
